Continuation of Substance of Interview including description of the general nature of what was discussed: The applicant(s) have agreed to cancel Claims 21-26 as these claims are directed to an invention non-elected, without traverse. Furthermore, the language in Claim 38 was changed to remove any confusion with double recitations, e.g. thin film metal, multilayer laminated structure, etc. Claims 39-43 were changed to merely correct informalities with the grammar. The changes to each of Claims 38-43 do not affect the scope of the claimed invention. The applicant(s) have agreed to all of the above changes (as noted in the attached Examiners Amendment), which places the application in condition for allowance..
